

AMERICAN SAMOA REAL ID POLICY

Passed by Congress in 2005, the REAL ID Act complies with the 9/11 Commission's recommendation that the federal government "set standards for the issuance of sources of identification, such as driver's licenses." The Act established minimum security standards for state-issued driver's licenses and identification cards and prohibits federal agencies from accepting licenses and identification cards from states that do not meet these standards for official purposes, such as at airport security checkpoints. The regulations established the deadline of October 1, 2020, to ensure full enforcement of the REAL ID Act by that date. States have made considerable progress in meeting the key recommendation of the 9/11 Commission and every state has more secure driver's license today before the passage of the Act.

THE REAL ID ACT OF 2005 REQUIRES THE FOLLOWING DOCUMENTS IN OBTAINING A NEW DRIVER LICENSE AND/OR ID CARD:

In obtaining a verified driver's license or ID card you will need to provide valid/unexpired, original documents, or certified copies. Driver license and Learner permits from the U.S. States and Territories are transferable. Non-certified copies are not acceptable.
